

PRINCESS

Jukebox *PRINCESS* Pedestals and loudspeaker systems

Technical details

Pedestal designed to complement the Princess

The pedestal can be used in various ways – as storage for CD covers, an additional HIFI system, as a mini bar or ..., the sky's the limit.

Pedestal with subwoofer system

A special door insert allows the pedestal to be used as a compact loudspeaker system.

A covered door insert is supplied inside the pedestal and can easily be changed for the standard closed door insert.

The subwoofer system with two satellites is installed by simply pushing into position in the pedestal. Both satellite speakers can be removed and be used separately, either fixed to the wall or free standing.

Dimensions

- Height 79.0cm
- Width 60.0cm
- Depth 41.0cm
- Overall height Princess incl. pedestal 181.0cm

Princess Black Onyx

The highly polished surface gives a very special, almost noble character to the Princess.

The high-tech pedestal provides an interesting combination of modern design and nostalgic flair for the Princess.

The pedestal is available in 2 versions:

1. cabinet without loudspeaker
2. with subwoofer system and separate satellites.

Both versions have fixed front screens manufactured of lacquered steel.

Dimensions

- Height 79.0cm
- Width 60.0cm
- Depth 41.0cm
- Overall height Princess Black Onyx incl. pedestal 181.0cm

2-way loudspeaker system LS 121

Available in floor standing or wall mounting version in a nostalgic design.

Dimensions

- Height 52.0cm
- Width 32.0cm
- Depth 25.0cm
- 120watts, 8ohms

Loudspeaker system LS 121 with wooden pattern or black high gloss surface

subwoofer system
